

Historic daffodils help: Verger

Author : Melissa Reading, California

Categories : [Daffodil Types](#), [Historics](#)

Date : March 13, 2008

Here are two photos of Verger as I grow it here in Livermore, CA. The bulbs were bought at the local nursery, Alden Lane, which provides the venue for our first NCDS show each year. It grows well and multiplies even with year-round moisture in our hot climate: my clump of it is in a margin of a watered bed. Melissa
