Date : April 9, 2008

The Oregon Daffodil Society has challenge classes for collections of daffodils hybridized by the exhibitor. This is analogous to the American Daffodil Society challenge classes for 3, 6, or 12 daffodils. The difference between ODS and ADS rules is that the flowers for the ODS classes must be grown outdoors. This enables them to compete for the Gold and Rose Ribbons. All three of these classes were contested. The attached picture shows the winning entry by Elise Havens. Ten of them are seedlings. The flower at the right end of the top row is Pathetique. The one second from the right in the bottom row is Little York. Kirby Fong
