

World Daffodil Tour - Clive Postles' Field

Author : Kirby Fong, California

Categories : [Hybridizing](#), [Seedling](#)

Date : April 26, 2008

Those who visited Clive Postles during the Daffodil Society Centenary in 1998 will remember a large field of daffodils. This picture shows what Clive is still keeping. The shade cloth serves as a wind break around two sides of the area with the most important seedlings. What you see here is almost the entirety of what Clive retains. Kirby Fong
