Date : July 30, 2008

It's summertime and hot here in Livermore, California; however, a few daffodils that I'm turning around from Australia and New Zealand are in bloom. The attachment shows Triple Pink, a new introduction by Peter Ramsay. I don't know whether the pink in the photo is representative or would be deeper in a normal winter, but the perianth is quite flat, so I thought I'd share this picture. Kirby Fong
