

## **m d k - generations 5**

**Author :** John McLennan, New Zealand

**Categories :** [Breeding](#), [Hybridizing](#)

**Date :** August 18, 2008

The first selection from

88 23 x Early Orbit, 06 - 166, garden name of The Stalker, a massive strong , thick stem and neck , big 110mm flower.

Slow opener, good colours, brighter than E O at opening.

Almost too big for a cut flower., not refined enough and too early for show,

Overall impression is size and strength
