---

You can promote daffodils and flower bulbs year round. At our Texas Master Gardener booth at the county fair over the years we often gave away some of our Lycoris Radiata and Oxblood lily bulbs to the children coming to the fair. We choose these over daffodil bulbs because the children could look at a vase filled with the blooms of these bulbs. Take the free bulbs home with them and plant them and get a bloom from the just planted bulb in just a few weeks. Our fair has a highly contested photo section with 18 different categories. You are limited to only 10 entries at each fair. You have four age groups: 13 and under, 13
