

## Palmerston North Show

**Author :** John McLennan, New Zealand

**Categories :** [Show Results](#)

**Date :** September 20, 2008

Last for the night as my notes are in the car and memory not what it once was.

Members of the Flat Earth Society would love the show champ.

It had the flatest profile of any daff I have seen, very well clocked, great colour, a surprise but worthy winner.

Trumpet Premiers -- all grown by IR N

1Y O --- Otaki Lights. easily measured div 1

1Y Y -- Kingston Flyer -- a David Bell [ N Z ] oldie that is a very useful late yellow

1W W -- Silent Valley --- not seen in N Z as much as U K , good size , very white.

**Daffnet.org**

For people interested in growing, showing, or hybridizing daffodils.

---

Many more for tomorrow.

And to all Kiwis who really care --- after 26 long years the Ranfurly Shield is back in Wellington.

THE BEST RESULT FOR YEARS yeah I,ll sleep well tonight

Cheers John
