Another attractive Kiwi vase ; unfortunately ,I didn,t get then individually

Top

3 Y - Y -- Kawhatau -- Max Hamilton ...

This variety was up on Monday from the Northern Show .It has more yellow than the photo shows , difficult to get a true tone .

Our premier from the 3 Y - Y was Citronita -- probably better known , very similar colour .

I thought the first of Citronita was a little pale -- second is better .

They obviously had the same problem with Kawhatau -- a useful late flower in a division that needs more work ...

---

2 W - W -- Cameo Snow -- Peter Ramsay

A tall, strong growing late all white , nice clean , round late flower .

2W - R -- Neon Blaze -- again colour .
