Wednesday, Bob and I went to Ironstone to deliver posters for the upcoming daffodil show in March. After we returned, Bob gave me a tour of his daffodils in bloom. Here are some photos of Bob's Blooms:

Daffnet.org

For people interested in growing, showing, or hybridizing daffodils.

<https://daffnet.org>

Photos of the first and last clumps are of daffodils that do not have leaves! The only time I have seen a leaf-free daffodil is *N. viridiflorus*.

Thank you for the tour Bob!

Nancy
