Hi folks,

Just to inform those that know Franca "Fran" Bozievich Higgins, my wife the daughter of Marie Bozievich, has been in the hospital since September 6, 2019 with severe pneumonia. We nearly lost her but she came through with an operation on her lungs and they got the infection out. But she is getting better and is being transferred today to a hospice type care for recovery for the next two week. I'm not sure where she is going, yet, it's very early here, but it is a rehabilitation type facility as she is very weak and will have to learn to walk again after being bed ridden for the last 10-11 days.

I will not be available on the computer for the remainder of the day because I will be with her getting her transferred. Sorry about posting so late but we are very private in our lives.

Clay
