I've read your post (Brian Duncan, Dec 2, 2016)

<https://daffnet.org/n-bulbocodium-n-triandrus-and-their-variable-hybrids-n-x-foster/>

and I think I found the same Daffodil last year in Portugal.

I found only one near some N. triandrus.

Do you think it's the same specimen?

The photos can be found in my post from my blog (**the last two pics**):

Thank you

Gonçalo Santos
