Hi Folks, Our news tells us that Minnesota is very cold with deep snow. It seems hard to believe that the Northern Hemisphere show season is only a few weeks away. I guess that it will be time for people to start talking about the next World Convention in Canberra 2020. Please be advised that we are planning a Post Convention tour in the South Island following the Convention. The tour will be of about ten days and will include the NZNDS South Island show and possible visits to Nelson and to closer daffodil properties. This will be a wonderful opportunity to add value to your Down Under experience.
